Scores Page

Specific and helpful information about student progress is on the **Scores** page, to access it click the [blue hyperlinked \(- -\)](#) in the applicable grade column. There you will find due dates, categories, assignments, codes, and information about outcomes and assessment methods. Comments and symbols appearing on this page present a profile of student work habits, indicating late or missing assignments.

A "Final Grade" will not appear until the end of the course. Teachers use best evidence of student learning to determine final grades. Students who demonstrate improved performance later in the course will have that evidence of learning reflected in their grade.

Refer to the marks, comments or scores on individual assessments or assignments. Encourage students to complete missing work and to target weaker areas for improvement.

The **Codes** provided on the **Scores** page are as follows:

- ✔ **Collected** - assignment has been collected
- ✖ **Assignment Not Included in Final Grade** - assignment is formative (practice), or for a variety of reasons not included in the student's grade
- L **Late** - student submitted the work late
- M **Missing** - assignment has not yet been submitted
- Ex **Exempt** - score for this assessment will not be included in the grade

Other codes used by the teacher may appear. The explanations for these codes are provided in the description at the top of the **Scores** page. If not, please contact the teacher.
